

CLASSICAL CROSSOVER SINGLE RELEASE

HRIDANAAD

हृदनाद

FREQUENCY OF LOVE

| SOUND OF THE HEART

Hridanaad translates literally as "*Heartbeat*" or "*Sound of the Heart*." Conceived as a musical bridge between traditions, the track harmoniously weaves together the contemplative depth of Eastern classical music with the rich harmonic textures of Western classical traditions.

Produced by **Daniel**, a versatile musician formally trained in Western classical guitar. An experienced studio engineer, Daniel brings notable industry credentials to the production, having worked with the legendary **Hariharan** and many others.

Through meditative bamboo flute phrasing and cinematic acoustic arrangements, *Hridanaad* creates an evocative sanctuary of peace and love.
